LISTENING TO AUTUMN

108 CHINESE CRICKETS CONDUCTED BY LARS FREDRIKSSON

TING QIU - LISTENING TO AUTUMN

More than 100 recorded hours have been distilled into a 79 minutes long soundscape of meditative, minimalistic and organic music that you can keep on a low volume for a barely audible distant sound of crickets surrounding your habitat. Or you can turn it up for the cricket concerto that demands total awareness and attention, demanding the listener's all encompassing presence.
